ABHIJITH VIJU PRIYA RANI

Backend Engineer | Distributed Systems & Cloud-Native Infrastructure
abhijithviju2005@gmail.com | +91 8281800297 | github.com/abhiiii05

EDUCATION

Indian Institute of Information Technology Vadodara *Aug 2023 – May 2027*
B.Tech in Computer Science and Engineering, CPI: 7.02

TECHNICAL SKILLS

Languages: Python, Java, C, JavaScript, TypeScript
Frameworks & Libraries: Next.js, React, Node.js, Express
Cloud & Infrastructure: Azure (Container Apps, Blob Storage), Docker, Redis, BullMQ, CI/CD
Data & ORM: PostgreSQL, MySQL, Drizzle ORM, Supabase
Other: Solidity, Hardhat, Ethers.js, IPFS (Pinata), REST APIs, System Design

EXPERIENCE

PiixelTheory, Co-Founder & Backend Engineer *Remote | Jun 2026 – Present*

- Co-founded a **freelance web development studio**, owning backend architecture and integrations while a partner leads frontend and design
- Delivered a production **e-commerce backend** for Vasco Foods (vascofoods.in), integrating **Razorpay payments** and **Shiprocket courier logistics**
- Onboarded **Solarium Green Energy**, a BSE-listed solar EPC firm (**~₹230Cr FY25 revenue**), on a **multi-year contract** for a full website rebuild and a new e-commerce vertical for solar panel sales

Wipro, Backend Engineering Intern *Hyderabad, India | May – Jul 2026*

- Migrated **4 core backend services** from Wipro's legacy monolith to a modernized architecture, maintaining functional parity across all migrated workflows
- Refactored key backend components to close data-integrity gaps surfaced during migration, reducing post-migration defect reports by an estimated **15-20%**
- Partnered with senior engineers to validate migrated modules against a regression suite of **40+ test cases** before production rollout, catching **3 critical defects** pre-launch

PROJECTS

Scalable File Processing System *Node.js, PostgreSQL, Drizzle ORM, Redis, Docker, Azure | Mar 2026*

- Architected a **Dockerized, queue-based file processing backend** deployed on Azure Container Apps, handling **25+ concurrent upload jobs** without dropped tasks
- Resolved an Azure Container Apps / Redis networking incompatibility by deploying a **Redis base image from Docker Hub**, cutting job-queue latency by roughly **20%** and eliminating recurring connection failures
- Designed **idempotent job retry logic**, reducing failed-upload rate from an estimated 8% to under **2%**
- Built a type-safe **Drizzle ORM schema** with tracked migrations across dev, staging, and production tiers, preventing schema drift between environments

Claude Code: Autonomous Coding Agent (CodeCrafters) *TypeScript, Node.js, OpenRouter API | Apr 2026*

- Built a **CLI-based coding agent** with a multi-step, ReAct-style reasoning loop supporting Read/Write/Bash tool-calling and autonomous, multi-turn task completion
- Implemented **structured function-calling** over the OpenRouter API, enabling the agent to plan, execute, and self-correct across **15+ file operations** per task without human intervention
- Designed a **modular tool-registration system** allowing new capabilities to be added without modifying the core agent loop

Obelisk: On-Chain Product Authenticity Platform *Next.js, IPFS, Solidity, Hardhat, Ethers.js | Jul 2025*

- Built a full-stack **Web3 application** enabling on-chain verification of product authenticity, recording **50+ product entries** with sub-2-second lookup latency
- Designed a **decentralized verification flow** ensuring transparent, traceable records across the supply chain, cutting manual audit steps by an estimated **30%**
- Used **Hardhat** for local contract testing and deployment scripting, catching contract logic errors before on-chain deployment

ACHIEVEMENTS

- Certified by **NASA – Kennedy Space Center**, Orlando, USA
- **1st Place**, Web Development — Hack-IIITV 2023
- 5th Place, CTF — Tech Hunt 2024
- 3rd Place, Football — Inter IIIT 2023 | 2nd Place, Football — Concours 2024

LEADERSHIP & VOLUNTEERING

Sports Committee Secretary, IIIT Vadodara *2025*

- Owned end-to-end logistics and operations for **100+ student athletes** across **4 inter-college tournaments**, managing budget, scheduling, and vendor coordination

Technical Committee, Core Member, IIIT Vadodara *2025*

- Planned and executed **3 large-scale technical events** for **400+ participants**, coordinating 5 cross-functional sub-teams
